PROJECTS

GURU-COOL

This was an education website named GuruCool and this website is made with next.js 12.2 and tailwind css.

Generally based on solo video conferencing between student and teacher.

POSITIVUS

frontend project using next.js and tailwind css.

Positivus is a modern web application built with Next.js 14 (was a task given to me by the BLUECORE-IT , ahemdabad) for internship purpose.

MED-TRACK.R

Med Track.R is a React Native app powered by Firebase, designed to manage medical records, track medicines securely. It offers real-time data sync and supports push notifications for medication reminders and appointment alerts, providing a user-friendly way to stay on top of healthcare

C-KRATE.S

C-Krate.S is a powerful and secure Notes App built with React Native (Expo) and MongoDB, designed to help you capture, organize, and sync your notes seamlessly. Whether you're jotting down quick thoughts, creating to-do lists, or saving important information, C-Krate.S ensures your data is always accessible and secure.
